**Cases and Other Authorities on Legal Ethics**—By George P. Costigan, Jr., Professor of Law in Northwestern University. American Case Book Series. William R. Vance, General Editor. St. Paul. West Publishing Company. 1917. Price \$4.00.

The teaching of ethics has now become a part in the curriculum of every law school and should be emphasized. Heretofore, the various books used for the teaching of this subject have been, in our judgment, hardly up to its needs, but with this sourcebook of Professor Costigan to supplement them we see no reason why the books should not give the student adequate instruction in legal ethics.

The work is excellently done, the cases admirably selected, and in addition to this there is inserted under the proper headings observations of moralists and of great lawyers and judges upon the ethical side of the profession.

We have found the book exceedingly interesting. Interspersed amongst the serious matter are anecdotes—every one illustrative of the matter under treatment—which lighten up the reading without detracting in any way, but rather adding to, the didactic features of the book.

We believe that any law school using it will find its aid almost invaluable and we can commend it to those engaged in the practice of law and who are interested in the history and ethics of the profession as a most useful and entertaining book.
